How it Works

Banks often protect their assets by saying "no" to loan requests. But at Exit4Funds, we say "yes" to qualified small businesses 90% of the time. That's because we see a big future for small businesses. And that is because we allow your business to leverage an asset that banks don't even take into account - your future credit card receipts from your customers.

Basic Requirements:

To take advantage of all that an Exit4Funds merchant cash advance has to offer, you must:

- **Have a history of processing customer credit cards from your business for at least 60 days.**
- **Process at least \$7,500/month in credit cards from your customers.**

Now is the Time

The economy may be slow, but your Exit4Funds merchant cash advance could arrive surprisingly fast. In fact, an advance of \$5,000 to \$200,000 could be approved in as little as 24 hours - and be in your bank account in as little as one week.

All of which means that in no time at all, you could be using your merchant cash advance to buy new equipment, expand or renovate, advertise, open new locations, pay off past debt, or do whatever else you can think of to help your business succeed.
